Both games were walkovers for the varsity. The Wildcats have won every game they have played this season, and every game but one of unusual scores. Out of the seven games played the varsity has scored 405 points to 130 points of the opponents, or an average of 58 points to 19 points per game. Sionaker and Towrea are largely responsible for the large scores with Sionaker in the lead.
Seven letters will be awarded this year for basketball. Sionaker, Wallace, Thomas, Towrea, Locking, Fisher and Jacoby will receive them. There will probably be no official champion of the southwest declared this year, since several colleges had no teams, but the Wildcats are the undisputed champions and can easily claim the unofficial title.

PARENTS, TEACHERS, OF GLENDALE MEET

GLENDALE, March 13.—The parent-teacher association held its initial meeting at the grammar school auditorium Friday night, March 11. Teachers from both the high and grammar schools were present, together with a co-operation of the parents.
Mrs. C. H. Tinker spoke on the value of a parent-teacher association, and of the duties of the parent in aiding the teacher. Miss Marie Blackman explained the teachers' point of view on the association and the aid that the teachers could derive from the hearty co-operation of the parents.
Torrance McKel spoke on the ways and means of making the association a success, and told how the association would make a much better understanding between the parents and teachers, each aiding the other to help bring the children into the proper understanding of school and home work.
C. C. Green, who spoke in the place of O. D. Bettis, who was unavoidably detained at the session at the legislature, gave a very interesting talk, setting forth the liberties of the teachers, and saying that so long as a teacher was efficient there should not be any reason why he or she should not be permitted to dance.
In all, it was a rousing good meeting and it is hoped that this initial step toward the organization of an association will be the means of cementing a firm friendship among all, as well as doing some great work.

After the bill providing for the appropriation of money for purchasing land for the placing of the government poultry experimental farm in the Glendale vicinity had been tabled last week, it was revived at the last meeting of the session Friday night and passed by a vote of 10 to 7 in the senate.
